Zoomers Kids Race Series 2017-2018

In calculating the race results, points should be awarded according to the place won for that race. If a non Zoomers member places above a Zoomers member, points should still remain as if all were members. Zoomers is not responsible for the Scores at each race. Scores are decided by the Race Director and Timing Company for each race.

For instance: Non Zoomers member wins 1st Place and displaces a Zoomers member to the next place. Zoomers member should not move up to 1st Place.

If there is no Youth Overall Award, it will not be calculated on our score sheet. Scores will be as they are for the race results for that particular race.

Another example as follows: Zoomer member places 4th in race, 1st, 2nd and 3rd place runners should not be eliminated to enable Zoomers member to come in 1st. First place should be meaningful for all runners!

Once the scores are posted for a particular race, we will give about two weeks for people to report discrepancies. Then we will publish a final update for that race and close off any changes.
